

INES ROSITO, E.I.T.

FULL-STACK SOFTWARE ENGINEER

📞 (403) 466-1609 ✉ ines@rosito.ca 🌐 rosito.ca 🔗 [LinkedIn](#) 🐙 [GitHub](#)

Experience

Deltek — Replicon

Jun. 2022 – Jan. 2026

Software Engineer

- Refactored codebase to resolve widespread GraphQL caching inconsistencies, implemented comprehensive unit and manual tests, and improved maintainability, eliminating multiple user-facing bugs and decreasing troubleshooting time.
- Optimized WCAG compliance and usability by auditing features, employing semantic HTML, ARIA labels, and keyboard navigation, and integrating accessibility checks into development improving usability.
- Improved development workflows by integrating AI-assisted tools, increasing efficiency in debugging, testing, and delivery timelines.
- Collaborated with cross-functional teams to identify, prioritize, and resolve issues in a fast-paced development environment with minimal disruption to customers.

University of Calgary, Auroral Imaging Group

Sep. 2020 – Dec. 2021

Software Development Assistant (Internship)

- Modernized [aurorax.space](#) by migrating from Python to React with Bootstrap, building interactive data visualizations and front-end functionality using RESTful API for enhanced performance, usability, and scalability.
- Designed and developed comprehensive UI mock-up and wireframe for 3D aurora borealis image navigation system, allowing filtering by time, location, and auroral type.
- Collaborated with researchers to translate technical requirements into user-friendly interfaces, ensuring accuracy and accessibility of scientific data.

Arterys Inc.

May 2019 – Aug. 2019

Software Engineering Intern (Internship)

- Conducted verification and validation testing in a regulated environment, ensuring product quality, accuracy, and compliance with medical standards.
- Identified and resolved usability issues through heuristic evaluation and front-end improvements, enhancing overall user experience using Vue.

Technical Skills

Core Competencies: User Experience, Accessibility, Debugging and Issue Resolution, System Reliability

Languages: JavaScript, HTML, CSS, Sass (SCSS), C/C++, Java, SQL, Bash

Frameworks & Libraries: React, Vue, Node.js, Apollo GraphQL, Material UI (MUI)

Tools & Technologies: Jest, React Testing Library, Git, Figma, Adobe Creative Cloud, Microsoft Office Suite

Education & Credentials

Association of Professional Engineers & Geoscientists of Alberta (APEGA)

2022 – Present

Engineer in Training (E.I.T.)

University of Calgary

2016 – 2022

Bachelor of Science in Software Engineering (with Internship)

Extracurricular

Electrical, Computer, and Software Engineering Students' Society

2017 – 2025

Vice President of Finance, Webmaster, Artistic Commissioner, Alumni Rep

University of Calgary

- Collaborated across teams to plan and execute events, improving student engagement and communication
- Created promotional graphics/merchandise and maintained society's website to enhance student engagement and event visibility.
- **Technologies:** React, HTML/CSS, Figma, Inkscape, GIMP, SQL

Hack Your Learning

2020 – 2022

Co-Chair, Event Organizer, Webmaster, and Mentor

University of Calgary

- Oversaw student workshops and provided mentorship and technical guidance, while designing and maintaining organization's website to enhance engagement and event communication.
- **Technologies:** React, Figma

Canadian Engineering Leadership Conference (2023)

2021 – 2023

Communications Team

Canadian Federation of Engineering Students

- Coordinated conference branding, visual identity, merchandise, sponsorship/delegate materials, and website to improve promotion and attendee engagement.
- **Technologies:** Figma
